

McCumber Angus Ranch

“Cow Herd known for outstanding maternal traits”

Sire Directory and Newsletter

I would first like to take this opportunity to thank all the buyers and bidders that took part in our 2012 Bull Sale. The sale barn was packed as full as it has ever been. The sale was also broadcast on RFD-TV by Superior Livestock. There was more active bidding on each lot than we have seen in any of our previous sales. This was also the first bull sale in which we have also offered yearling heifers. They were very well received. We will continue to sell heifers in our future bull sales.

I would also like to draw your attention to the bottom of this page, in which we have listed the tours that are coming here this fall and also a reminder of the Angus Partners sale on January 4, 2013.

The first tour is the North Dakota Angus tour that will be at our ranch on Sept. 18th. We are very excited that the North Dakota Angus Association is once again sponsoring an Angus tour to showcase the Angus cattle produced in North Dakota and the region.

We will be displaying cow/calf pairs and bred heifers. This will give you a very good chance to see the bull calves, on their mothers before they are weaned. The heifer calves will also be with their mothers.

This will also be a great opportunity to see the first calves sired by Fortunate Son. He is siring calves with great length of body, a wide square base, a big top and abundant muscle. We think that you will like these calves as much as we do. Fortunate Son's dam is a very feminine female and the daughters of Fortunate Son are the same, nice headed with a clean long neck. We look forward to showing you this outstanding sire group as calves, at the tour, and again at our bull sale in the spring.

We will again have many calves sired by Entrepreneur whose progeny were extremely well received in our 2012 Bull sale. We will be displaying many calves sired by Entrepreneur who are out of 4X13 daughters. This mating has worked very well. The Entrepreneur bull calves will be no different than what you saw at our 2012 bull sale, deep, thick, wide based bulls that stand on a very correct foot and have abundant muscle. He has been very consistent in the phenotype he sires. We are very excited about his daughters and are waiting to get them in production. They are deep broody females.

We will also display calves sired by McCumber 4X13 Extra 829. 829 is doing a great job of siring masculine, heavy muscled bulls, yet his daughters are very feminine. We have used 829 on the daughters of Tremendous and Missing Link and it has worked very well and you will see these also on display during

the tour.

I do not want to forget to mention the calves sired by Tremendous. There are many really good bull calves and his daughters are making outstanding cows. They are very feminine, with lots of body, a picture perfect udder and very feminine about their head and neck.

The bred heifers will be sired by the bulls that I have mentioned along with daughters of Missing Link. There are many Missing Link daughters that are out of 4X13 dams. These are very deep bodied, broody females and have been doing a good job raising calves.

Well, it was bound to happen, when you have granddaughters and horses. They get hooked on one another.

That's not bad though, since they are good help with the cattle. These are two photos taken at the 4H Horse Club show. Sydney on Pokey and Eva on Jake.

The second tour that will stop at the ranch is the North Dakota Stockman's Tour and we

will be the breakfast stop on the second day, Oct. 13th. They should be here at the ranch at 8:30 am for breakfast and viewing the cattle. We will have weaned the calves by then, but will display many of the bull and heifer calves and also their dams and the bred heifers. This is an invitation to join us for the tour, either day or for both.

The Angus Partners Sale is scheduled for January 4, 2013 at Kists. This has been one of the top sales in the country for commercial females. If you have purchased bulls from either McCumber or Spickler Angus Ranch, the heifers sired by these bulls or bred to them will be eligible for this sale.

We hope to see you on the tours, if neither works, you are always welcome to stop.

Chuck, Matt and Family

McCumber Rito Rolette 1108

This is the lot 1 and high selling bull in our 2012 Bull Sale going to Pine Coulee Ranch, in MT. We believe 1108 to be one of the most outstanding bulls that we have raised and we have used him heavily this spring. We anxiously await the arrival of his first calves. Sired by Entrepreneur and from an outstanding cow family, 1108's dam and grandam are two of the highest ratioing females in our herd. 1108's dam records B: 3/99, W: 3/109, Yr: 3/109 and his grandam produced B: 6/103, W: 6/112, Yr: 6/108 and is a pathfinder dam. Both have produced leadoff bulls in our bull sale and the dam of 1108 is nursing one of the top bull calves born in 2012.

McCumber Angus Ranch will be hosting the following tours and sale. Please plan to attend.

North Dakota Angus Tour, September 17th and 18th, 2012 McCumber Angus Ranch stop: Sept. 18th @ 3:00 (last stop) North Dakota Stockman's Tour, October 12th and 13th, 2012 McCumber Angus Ranch stop: Oct. 13th. @ 8:30 am (breakfast stop, in the morning)

Angus Partners Sale, January 4, 2013, at Kist Livestock, Mandan, ND. A sale of commercial bred heifers and heifer calves sired by or bred to McCumber Angus Ranch or Spickler Angus Ranch Bulls. The best source of functional Angus females with known maternal traits.

4X13 is the most prepotent sire that we have used at the ranch. Tracing 38 times to Emulation 31, 4X13 is a proven calving ease sire that also consistently transmits exceptional marbling and outstanding females. We have over 100 producing daughters of 4X13, who are one like the other. They have earned an average weaning ratio of 102 in the McCumber herd. EPDs as of 8/31/12

"829" sires length, muscle and progeny that are correct on their feet and legs. He sires outstanding performance and will see continued use at McCumber. His cow family, starting with his grandam, is backed by six consecutive generations of pathfinder cows. EPDs as of 8/31/12

Miss Wix 6114 of McCumber
 The outstanding dam of McCumber 4X13 Extra 829.

Miss Wix 2027 of McCumber
 The outstanding grandam of 829, who is a donor cow at McCumber Angus Ranch

Miss Wix 1105 of McCumber
 An excellent daughter of 829 out of a Missing Link first calf heifer.

McCumber 829 Extra 064 was the top selling bull in 2011. He is sired by McCumber 4X13 Extra 829.
